DESCRIPTION

E-TYPE SERIES 1 OTS 3.8 IN CONCOURS CONDITION - FRESHLY RESTORED, THE ETERNALLY BEAUTIFUL SPORTS CAR - A CENTURY DESIGN Restored to the highest level with matching numbers and matching colours. The chassis number, engine number and gearbox number match exactly with the heritage certificate. As an investment, as a reliable classic to drive yourself or as a once-in-a-century design object that you would like to own. The colour combination Opalescent Golden

Sand with beige interior is rare, looks fantastic and was in this exact combination from the factory in February 1964. This E-Type was born on January 23, 1964. It left the JAGUAR factory on February 1, 1964 and was then shipped to the USA, to New York. America had no serious sports cars of its own, loved the E-Type and had its pockets full of money. Almost 70% of the left-hand drive E-Types were sold in the USA. In 2022, this E-Type was found in very good condition. With matching numbers, a very solid body and all important chrome parts. Due to the excellent condition, nothing stood in the way of a Nut & Bolt restoration. This restoration took 1 ½ years and 2,000 hours of work by our experts. Every single screw was handled, all cavities were opened, only body parts that could not be repaired were professionally cut out and replaced with new ones. Great care was taken to work exactly as the Jaguar factory did in 1964. All welding points are correct, every detail is in its place and only tin instead of filler was used on the surfaces. A technology that is now only mastered and used by a few specialists. The gap dimensions and the surfaces, the flat body panels speak for themselves. Two coats of clear varnish were applied and additionally sealed with ceramic. The engine was tested on an engine test bench before being installed in the E-Type. After the complete restoration, we test drove the E-Type for 400 km. This E-Type offers you the highest quality, originality and drives perfectly. A dream car in the 1960s as much as it is today. We look forward to your inquiry and are available to you even after your purchase with our full workshop service.
