DESCRIPTION

RANGE ROVER CLASSIC 3.5 V8 EFi in very good and very original condition The Range Rover created a completely new and groundbreaking class of vehicle in 1970. The comfortable luxury off-roader. A powerful V8 engine, a comfortable coil spring chassis, an interior with space and comfort and a timeless and straightforward design. No automobile has managed this balancing act between uncompromising off-road suitability and comfort at speed on the asphalt so perfectly and stylishly. This RANGE ROVER 3.5 V8 EFi is in great and very original condition. Lots of first paint on the body, an original interior with great condition of the materials. The original Chamonix White goes perfectly with the beige interior. The underbody is also in great condition, we have repaired the technology and tested it extensively. Built in 1986 and delivered to sunny Spain. There it only had 2 owners before it was delivered to Germany to the current owner. Many service receipts and safety checks since 1986 are available and confirm good care. Equipped with the crisp 5-speed manual transmission and power steering. We look forward to your inquiry and will be happy to provide you with further support with our workshop and team even after the purchase.

Every effort has been made to ensure the accuracy of the information above, however, errors may occur. Do not rely entirely on this information but confirm with us about items which may affect your decision to purchase.
