DESCRIPTION

This 1971 E-type V12 automatic was built in June 1971 and sold via RA Creamer of Kensington, London. Within the first two-hundred and fifty right-hand drive Series 3 coupes built. The car left the UK a few years later and lived in Japan up until 2019 when the car was repatriated and bought by the current owner as a restoration project. At some point during its time in Japan it was repainted in Silver. The car has had a full professional restoration carried out and has been returned to its original colour scheme of Signal Red with Black interior. The car has the benefit of a Tudor Webasto fabric sunroof, which has been retrimmed in black mohair. The car has been kept as close to original factory specification as possible, notable exceptions being the optional “wire-wheels” and a classic-looking DAB radio and speakers. The car has been fully checked over in our own workshops and will be supplied with 12 months warranty and 12 month breakdown cover.
