DESCRIPTION

This charming mid nineteen sixties Land Rover Series 2A 88" was supplied to its first owner in Australia through Grenville Motors of Sydney. The vehicle spent its early life as a commercial vehicle, and later moved to a more rural area. It has been lightly used over the years and gained its beautiful patina. An enthusiast found the vehicle in the late 2010s and used it for classic car runs and meets. It came back to the UK from Australia in the last few years and is now UK registered with an appropriate age-related number plate. Whilst the bodywork is untouched, the car is in excellent shape mechanically, having been prepared in our own workshop here at Jaguar Land Rover Classic. This is a rare opportunity to acquire a Series Land Rover that still has its original chassis, bulkhead, engine and body parts. Comes with 12 months warranty and breakdown cover.
